

ALL-PURPOSE LIGHT PUTTY

DEFINITION

All-purpose lightweight polyester putty.

The main advantage in comparison with standard polyester putties is its good adhesion to both galvanised metals and to aluminium.

Its excellent adhesion is achieved maintaining all the qualities that a good putty is requested to have such as easy application, fast drying and easy sanding (beginning with P120 abrasive paper).

PHYSICAL CHARACTERISTICS

Nature: Colour: Specific weight: VOC: Unsaturated polyester White and beige 1,2 kg/l at 20°C 25 g/l Mixing Application

AUXILIARY PRODUCTS

Hardener PBO

SUITABLE SURFACES

It may be applied on steel, aluminium, galvanised, polyester surfaces and OEM Paint. When maximum protection is required apply on epoxy primer. Do not apply on thermoplastic finishes and Wash Primers.

SURFACE PREPARATION

1 - Identify surface.

2 - Process:

All clauses contained herein apply to any future changes or modifications. For any additional technical information please consult with our Customer Service or our Technical Department.

SUGGESTION:

The longer it takes between sanding the putty and applying the primer filler the better will be the finish.
