POLISHING SYSTEM

DEFINITION

The series 1000 of ROBERCAR polishes comprises the following three products:

- **ROBERCAR 1000 XTREM - Heavy cut compound**
Heavy cut premium product for the permanent removal of scratches on fully cured and high resistance clear coats. It removes permanently P1500 or finer sanding scratches on any paint system. It provides with a good gloss finish even on difficult colours. Waterbased and low VOC product.
- **ROBERCAR 1100 SMART CUT - Cut&gloss compound**
Polish designed to provide with maximum cutting action on fresh/not fully cured surfaces or as a 2nd step after using ROBERCAR 1000 XTREM on hard surfaces. It permanently removes scratches from P1500 or finer. Superior gloss finish is provided even on difficult colours. Waterbased and low VOC product.
- **ROBERCAR 1200 SHINE - Finishing detailer**
Liquid polish used to give a high gloss finish with excellent durability on fully cured paintworks.

PROCESSES

1. Analyze the superficial defect as well as the conditions of the surface to be rectified.
2. Surface preparation
3. Choose a polishing process depending on the preparation and choose the best auxiliary product for each one.

REMARKS

Store at room temperature, protect from frost, shake before using.
Before choosing the polishing process is very important to take into account the following factors: kind of pad, curing and colour of the surface.

SAFETY

Follow instructions of product label. For more information check the Safety Data Sheets. Compliant with the National Statutory Regulation for Health and Safety at Work and Waste Disposal.

STORAGE

Store the product in a ventilated place far from direct exposure to sunlight. Keep between +5°C and +30°C.

GUARANTEE

In unopened original packaging, one year from manufacturing date.
