REMARKS

10°C

20°C

30°C

Do not add more hardener than specified. Mix thoroughly. It must be isolated before applying finish coating. Polyester putties will not harden at temperatures under +5°C.

EQUIPMENT CLEANING

Clean putty knifes with a cleaning thinner before the product hardens.

SAFETY

Follow instructions of product label. For more information check the Safety Data Sheets. Compliant with the National Statutory Regulation for Health and Safety at Work and Waste Disposal.

STORAGE

Store the product in a ventilated place far from direct exposure to sunlight. Keep between +5°C and +30°C.

GUARANTEE

In unopened original packaging, one year from manufacturing date.

For any technical information contact with our Customer Attention Service or our Technical Department.

ROBERLO SA declines any responsibility due to an incorrect use of the product.

SUGGESTION:

It is recommended NOT to use abrasives higher than P80 to prepare aluminium surfaces because it wears out easily.
